Fund performance assumes that dividends (before taxes) are reinvested in the fund. NAV value is calculated after deducting trust fees. In the graph, the value of (FactSet Japan Semiconductor Index) is modified to match the fund NAV at the time of inception. The performance data quoted represents past performance and does not guarantee future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost. High short term performance of the fund is unusual and investors should not expect such performance to be repeated.
