Investment Risks

The Fund will invest in financial instruments whose prices fluctuate and as a result the NAV per unit of the Fund will also fluctuate. Therefore the invested amount will not be guaranteed and a loss of principal may be caused. All the gains and losses accrued to the trust assets will be attributable to the investors. Investment trusts are not deposits.

Major factors to cause fluctuation of NAV per unit:

Price Volatility risks / Credit risks (Stock Price Volatility), Other risks

The performance of the NAV may not completely match that of the index. The factors to cause fluctuation of NAV per unit are not limited to those mentioned above. Please read "Investment Risks" in the fund's Prospectus describing in detail.
